LEICESTERSHIRE

FIRE and RESCUE SERVICE

Status of Report: Public Agenda Item: 12

Meeting: Combined Fire Authority

Date: 8th April 2015

Subject: Medium Term Financial Plan 2015/20

Report by: The Chief Fire and Rescue Officer and the Treasurer

Author: Trevor Peel (Director of Finance and Corporate Services)

For: Decision

1. Purpose

The purpose of this report is to update the Combined Fire Authority (CFA) on the draft Medium Term Financial Plan (MTFP) for 2015/20 following the CFA's decisions on the Integrated Risk Management Plan (IRMP) at its meeting on the 11th February 2015. It also seeks approval to change the implementation dates of two of the agreed decisions and to show the subsequent impact on the 2015/16 Annual Budget and the MTFP.

2. Executive Summary

- 2.1 The CFA agreed a gross volume standstill budget for 2015/16 of £38,035,290 and a final budget requirement of £37,123,957. It agreed a Council Tax for 2015/16 and authorised the Treasurer to raise the precept. The budget for 2015/16 has now been revised due to the receipt of detailed Business Rate income forecasts from the Billing Authorities and a revised Council Tax Collection Fund Surplus. The details of the proposals and recommendations for the £227,412 additional income generated were agreed by the Policy Committee on the 4th March 2015.
- 2.2 The disestablishment of the Resilience Team was shown in the IRMP consultation as being effective from the 1st April 2016, following detailed work with staff and the Fire Brigades Union (FBU) as part of the Southern Fire and Rescue Station changes it is now proposed to change this to the 1st April 2015. It is also proposed to introduce Day Crewing Plus (DCP) at Wigston from the 1st October 2016 to allow sufficient time for the necessary building works. The detailed list of growth and savings items in **Appendix 1** has been revised to reflect these changes.
- 2.3 In addition, Members are asked to note the medium term financial position for the period 2016/17 to 2019/20 (as shown in **Appendix 2**) and the anticipated future financial impact of further reductions to funding. A draft Capital Programme for 2015-20 is shown as **Appendix 3**.

3. Report Detail

Revisions to the 2015/16 budget

- 3.1 The Department for Communities and Local Government (DCLG) announced the final 2015/16 settlement on the 10th February 2015. As verbally updated at the CFA meeting on the 11th February 2015, there were no changes to the provisional settlement received by the CFA on the 18th December 2014.
- The CFA on the 11th February 2015 set a total final budget requirement of £37,123,957. After carefully considering all of the options available to it, the CFA set its tenth Council Tax at £60.43 for a Band D property (a 1.99% increase). The property tax base was 295,651.02. In total a sum of £17,866,516 is due to be raised from Council Tax in 2015/16 with a further £269,906 expected from the 2014/15 Council Tax Collection Fund Surplus.
- Following receipt of updated information, the Council Tax Collection Fund Surplus for Harborough District Council has been increased by £4,033, from £13,820 to £17,853. The revised total Collection Fund Surplus is now £273,939 and this revision is reflected in the Revenue Spending Power in **Appendix 2**.
- 3.4 The Billing Authorities were required to submit their forecasts for business rate income to DCLG on the 31st January 2015. The forecast business rates and Section 31 grant income for each billing authority has been matched to the DCLG estimate and will generate additional income for the CFA in 2015/16 of £223,379 (£133,498 on Business Rates and £89,881 on additional Section 31 grant).
- It was agreed by the Policy Committee on the 4th March 2015 that of the total additional income of £227,412 in 2015/16, an amount of £114,000 would be transferred to a new earmarked reserve as the CFA's equal share of the potential costs arising from Fire Control collaboration with Nottinghamshire and the City of Nottingham Fire Authority. This will match the financial contribution already set aside by that Authority. It was further agreed that the remaining £113,412 should be transferred to the General Reserve. This has the effect of reducing the 2015/16 funding requirement from the General Reserve from £195,459 to £82,047 as reflected in **Appendix 2**.
- 3.6 The disestablishment of the Resilience Team was shown in the IRMP consultation as being effective from the 1st April 2016, following detailed work with staff and the Fire Brigades Union (FBU) as part of the Southern Fire and Rescue Station changes it is now proposed to change this to the 1st April 2015. This means that the remaining members of the Resilience Team will be displaced and issued with new contracts from the 1st April 2015. This has introduced permanent budget savings in 2015/16 which ensures that the permanent budget is in a slight surplus position but is fully offset by an increase in temporary costs as the firefighters concerned will become over establishment until the overall numbers decline through retirements.
- 3.7 The Senior Management Team (SMT) received a Project Initiation Document (PID) for the introduction of Day Crewing Plus at Wigston Station. This gave a forecast

completion date of the 1st October 2016. The draft MTFP has been revised to reflect this as it initially had an estimate of the 1st April 2016. This has no overall effect on the MTFP.

Medium Term Financial Plan (MTFP) - Revenue Spending Power

- 3.8 The final settlement did not provide any financial details beyond 2015/16 due to the impending General Election in May 2015. On Local Government future funding, there are huge differences emerging between commentators on the extent of the cuts to come. The Office for Budget Responsibility is suggesting that 60% of the cuts remain whereas the Treasury asserts that further welfare cuts and taxavoidance measures mean that the figure is only one-third.
- 3.9 **Appendix 2** sets out projected expenditure and income for the period 2016/17 to 2019/20 and is based upon the annual budget for 2015/16 that was agreed by the CFA. In order to look at the likely position for future years it has been necessary to make a number of assumptions in respect of both income and expenditure.
- 3.10 In agreeing the 2015/16 budget, the CFA increased Council Tax by 1.99% setting the rate for a Band D Property at £60.43. An increase of 1.99% is applied for each year from 2016/17 to 2019/20. This is in line with the current maximum allowed within the referendum limit. It has been assumed that the Council Tax Base will continue growing in the medium term. For the MTFP the growth assumed of 0.5% has been based on the growth in 2011/12 reported by the Districts and Unitaries prior to the introduction of localised Council Tax Support.
- 3.11 Pixel Financial Management act as external advisers to the Treasurer in providing information and analysis on the Settlement. They have developed a future forecasting funding model for the CFA and the information contained in this model is represented in the MTFP. This highlights the likely future funding from DCLG in respect of Revenue Support Grant, Redistributed Business Rates, Business Rates Top Up and Section 31 grant for Business Rates Adjustment. This indicates that in 2016/17, funding from DCLG will reduce to £14,917,990 from £16,681,464 in 2015/16 (a reduction of 10.6%). This downward trend is predicted to continue throughout the MTFP.
- 3.12 The Fire Revenue Grant (New Dimensions) assumes a 1% increase in grant for each year, whilst the Firelink revenue grant assumes an increase in line with the Consumer Price Index (CPI) (1.3% as of October 2014). The CFA income is also assumed to increase in line with CPI.

Medium Term Financial Plan (MTFP) - Expenditure

3.13 In terms of expenditure, an allowance has been included for forecasted increases to pay of 1% in 2015/16 and then 2% in each subsequent year. The only non-pay allowances for inflation in the MTFP is for anticipated increases in business rates (in line with the Retail Price Index (RPI), 2.3%), and heating and lighting (at CPI 1.3%). No inflation is added for fuel costs and travel and subsistence rates. Provision is made within the Volume Standstill budget for increments for support staff in April each year in line with their national terms and conditions.

- 3.14 The MTFP reflects the future year's effect of the agreed growth and savings for 2015/16 and the draft Capital Programme for 2015/20. An analysis of the growth and savings over the MTFP period is shown in **Appendix 1**. This has been updated from that presented to the CFA in February 2015 to include the effect of the CFA's agreed decisions on the 2015/20 IRMP and this report. The MTFP reflects the ongoing revenue impact of the Capital Programme. A draft Capital Programme for the period 2015/20 is attached at **Appendix 3**.
- 3.15 The MTFP assumes that the General Reserve will be maintained at 5% until 2019/20.
- 3.16 The CFA at its meeting in February 2015 agreed a balanced budget for 2015/16. The MTFP is based upon the IRMP savings agreed by the CFA in February 2015 and also the current CFA position that that no wholetime operational staff redundancies are made. On this basis it can only be possible to produce a balanced budget in 2016/17 if a significant amount of the unallocated general reserve is used to support the budget. The MTFP forecast continues to show significant funding shortfalls in the years between 2017/18 and 2019/20. The forward estimates from 2016/17 for Council Tax are not fixed and do not commit the CFA.

4. Report Implications / Impact

4.1 Legal (including crime and disorder)

All legal implications are contained within the main body of the report.

4.2 Financial (including value for money, benefits and efficiencies)

These are included in the main body of the report.

4.3 Risk (including corporate and operational, health and safety and any impact on the continuity of service delivery)

The CFA had to set a budget for 2015/16 within available resources which ensures that the CFA has sufficient reserves to meet financial risks that might occur. The CFA has to live within its financial resources and there is a serious financial risk if the revenue budget is not managed appropriately. The CFA has to agree the use of any of the Financial Reserves set aside for this purpose in the Annual Budget.

4.4 Staff, Service Users and Stakeholders (including the Equality Impact Assessment)

Employee costs account for just under 72.2% of the CFA's 2015/16 agreed budget, with a further 1.8% being spent on indirect employee expenses. The restrictions being enforced as a result of budget planning will impact upon these budgets.

4.5 **Environmental**

None.

4.6 Impact upon Our Plan Objectives

The delivery of the Our Plan Objectives is to some extent resource dependent and this report is therefore relevant to the achievement of the Our Plan Outcomes.

5. Recommendations

The CFA is asked to:

- a) Approve the disestablishment of the Resilience Team from the 1st April 2015.
- b) Note the planned implementation date for Day Crewing Plus at Wigston.
- c) Agree the revised list of Growth and Savings detailed in **Appendix 1.**
- d) Note the draft Medium Term Financial Plan 2015/16 to 2019/20 detailed in **Appendix 2.**
- e) Note the draft Capital Programme 2015 -2020 detailed in **Appendix 3.**

6. Background Papers

- a) Budget 2015/16 (CFA Report 11th February 2015)
- b) Organisational Change Project Integrated Risk Management Plan Consultation Outcomes (CFA Report 11th February 2015)
- c) Medium Term Financial Strategy 2013-16 (CFA Report 12th December 2012)
- d) Local Government Finance Settlement (Policy Committee Report 14th January 2015)
- e) Local Government Finance Settlement (Overview and Scrutiny Committee Report 28th January 2015)
- f) Medium Term Financial Plan 2015/20 (Policy Committee Report 4th March 2015)
- g) Medium Term Financial Plan 2015/20 (Overview and Scrutiny Committee Report 18th March 2015)
