Introduction

Do you want to help us make your community safer, stronger and more resilient? Leicestershire Fire and Rescue Service are consulting on our next Community Risk Management Plan (CRMP) and we want to hear your thoughts.

This is a crucial opportunity for you to have your say and help us shape our priorities for the next 4 years. We're committed to responding to the needs of our community and making our services more accessible, effective, and inclusive. Your views count.

The proposals support our view that we should use our staff and fire engines efficiently and effectively in undertaking our prevention, protection and response activities and that our proposed CRMP would provide us with the flexibility to do this in a way that ensures we maximise the use of these resources.

We want to hear from as many people as possible, so please take a moment to respond to our consultation.

The consultation period begins on Friday 1 September and will close at midnight on Friday 24 November 2023.

Key messages

Do you want to help us make your community safer, stronger and more resilient? Leicestershire Fire and Rescue Service are consulting on our next Community Risk Management Plan (CRMP) and we want to hear your thoughts.

This is a crucial opportunity for you to have your say and help us shape our priorities for the next 4 years. We're committed to responding to the needs of our community and making our services more accessible, effective, and inclusive. Your views count.

The proposals support our view that we should use our staff and fire engines efficiently and effectively in undertaking our prevention, protection and response activities and that our proposed CRMP would provide us with the flexibility to do this in a way that ensures we maximise the use of these resources.

We want to hear from as many people as possible, so please take a moment to respond to our consultation.

The consultation period begins on Friday 1 September and will close at midnight on Friday 24 November 2023.

The CRMP is a comprehensive plan outlining LFRS's commitment to ensuring Safer People and Safer Places within our communities and workplaces. The plan focuses on identifying and mitigating foreseeable community-related risks. The CRMP will cover a 5-year period and will be developed through consultation, be accessible and cost-effective, and reviewed regularly.
