

LEICESTERSHIRE

FIRE and RESCUE SERVICE

Home Office Operational Fire Statistics

2011/12 - 2018/19

Please note: The data in the following tables are consistent with records that reached the IRS by 16 June 2019. Any changes by individual services since then, are not reflected in the tables attached. These will be amended the following year.

Created: September 2019
Reviewed: September 2019
Owner: Performance

The information below summarises LFRS performance and benchmarks it against the national (England) average, as well as the average of all East Midlands services and the average of Significantly Rural Authorities which LFRS are classed as. Family Group averages are not provided as this covers just services in England and is missing South Wales and Northern Ireland data, both of whom are in Family Group 4.
